President's June Note:

What an amazing end to our Garden Club year! While expecting 30'ish, there were over forty members who joined our end of year meeting/celebration on June 9th at Berkshire Botanical Gardens! The weather was delightful, the camaraderie was warm and the food was delicious! Again, my sincere thanks for all who donated prizes, joined in the fun, made dues contributions, and signed up for critical activities to support our mission!

As noted in the attached minutes, there are planned field trips, book club selection, Flower show submissions and saving petals for Fall potpourri workshop and pumpkin creations for a busy summer schedule! Stay tuned for periodic emails from our incoming President Karen Spies!

As I exit my role to take on a new one of Secretary, I again thank Sarah Hatch for her service over many years in this function. You will be a tough act to follow!!

Thank you for our summer Post Office Window display Theresa Michney, Anne Gannon, and Mary Tierney (with a minor contribution by me!) for the sweet summertime vibes!

And thank you all for your support, friendship, and patience as I staggered through this year...your humor and guidance were so welcomed! As a relatively new gardener, this year I have learned so much from Harriet's monthly columns as well as learning the ropes by volunteering and learning from our more experienced members.

It was an honor and privilege to serve in the executive team, and I am looking forward to supporting Karen, Theresa, and Jill in their new journey! And I wholeheartedly recommend that you consider serving the club in future years in a leadership role.

Thank you for the laughter and chance to be of service!

Humbly submitted,

Linda Goff, President
Academy Garden Club of Lenox
